

PRECISION. RESILIENCE. UPTIME.

Facility Management
Built for Data Centres

COMPASS GROUP INDIA | DATA CENTRE IFM SOLUTIONS

Powering the world's digital backbone with world-class uptime reliability, compliance, and sustainability.

*Uptime Assurance (tier-aligned) | Energy Efficiency (PUE-optimised) |
ISO-compliant | Predictive Maintenance | Digital-first IFM*

Data Centre Facility Management *Redefined*

Proven Data Centre Expertise Since 2014

Serving India's mission-critical data centre ecosystem with scalable and high-reliability operations. Growing from early deployments of 47,000 sq. ft. to managing over 3.1 million sq. ft. of critical white space environments and total installed capacity of 300+ MW across multi-site portfolios.

Awarded and Recognised for Uptime Resilience & Operational Excellence in Critical Scenarios

Airtel Nxtra for consistently maintaining uptime integrity, service continuity and operational stability during crisis, high-risk and unprecedented situations.

At Compass Group India, we deliver mission-critical O&M solutions and service excellence for critical environments. Our precision-driven, compliance-led and tech-enabled model ensures operational continuity designed to assure uptime, ensure SLA adherence, enhance asset reliability and maintain continuous audit readiness across hyperscale, colocation and enterprise data centres.

Our Edge in Mission-Critical *Facility Management*

ISO-aligned, Audit-ready & Compliance-led Operations

Process-driven operations aligned with ISO 9001, ISO 14001, ISO 41001, ISO 45001 and ISO 55001 management system standards, incorporating specialised Data Centre cleaning and contamination-control practices in accordance with ISO 14644-11 standards

Proven Tier-compliant Performance

Delivering Tier-III/IV aligned uptime performance with continuous PUE (1.25-1.65) driven energy optimisation

Tech-enabled Intelligence

Real-time CAFM dashboards via our proprietary Saarthi-FX platform for performance tracking and preventive maintenance

SME-driven Governance

Backed by Compass Global Centres of Excellence and technical SMEs, focused on improving system availability, reliability and uptime performance across critical environments

Risk-free Operations

End-to-end adherence to Integrated HSE, Electrical Safety, and Compliance Protocols designed to minimise operational risk, prevent incidents and support continuous uptime and incident-free workplaces

Our Integrated *Data Centre Solutions*

High-side System Management

Electrical Power Distribution | HT & LT Systems | Captive Power Plants | Centralised DCIM | HVAC Systems (Chillers, PACs, PAHUs) | Fire Alarm & Gas Suppression | WLD & VESDA

Low-side & Facility Operations

UPS & Battery Power Systems | Maintenance (Civil, Carpentry, Plumbing) | Lighting Systems | Access Control | AV & Utility Management | Statutory & Safety Compliance

Data Centre Deep Cleaning Solutions

Clean environments are critical to uptime protection. Our data centre cleaning and contamination-control practices are aligned with ISO 14644-1 standards for particle reduction and improved air quality

Results Delivered

- Enhanced cooling efficiency and lower energy draw
- Reduced downtime through preventive cleaning cycles
- Documented before-after reporting and audit trails

Digital Performance at the Core

- Saarthi-FX: Our proprietary CAFM & IoT monitoring platform
- Predictive maintenance alerts | QR-coded cleaning logs | Centralised audit visibility
- Integration with client DCIM systems for single-window governance

COMPLIANCE. CONTINUITY. CONFIDENCE.

We help data centres ensure uninterrupted operations through self-delivery models, digital precision and global expertise.

Our Strategic *Advantage*

- Global legacy with presence in 30+ countries
- Managing over 23 Data Centres across India
- 1,200+ Data Centre Trained Facility Professionals
- Certified delivery teams for Tier-III to Tier-IV facilities
- Backed by Compass Group PLC, serving 96 of the Fortune 100

Let's Talk Data Centre Facility Excellence.

Partner with Compass Group India to power your digital infrastructure efficiently, safely and sustainably.
